

In January of 2017, through "Wheels of Life" charitable project 11 wheelchairs were successfully purchased, shipped, and distributed for free to underprivileged paralyzed people in COLOMBIA.

Here are some pictures of the recipients, please recognize how important our joint efforts are.

This was a collaboration of International Wellness Foundation, Inc., GFWC Woman's Club of Stuart, Corporate and Private supporters that transferred paralyzed people from folding chairs and unbelievable constructions into comfortable, safe, enhancing mobility and independence wheelchairs.
