

In **June & July of 2017**, through "*Wheels of Life*" charitable project 11 wheelchairs were successfully purchased, shipped, and distributed for free to underprivileged paralyzed people in **INDIA**.

Here are some pictures of the recipients, please recognize how important our joint efforts are in promoting the mobility.

This was a collaboration of International Wellness Foundation, Inc., GFWC Woman's Club of Stuart, Corporate & Private supporters that transferred paralyzed people from crawling on the ground & limited to folding chairs into comfortable, safe, enhancing mobility, independence & productivity wheelchairs.
